

**LONESTAR**  
TRACKING  
GPS TRACKING MADE EASY

# PioneerLTE

## Installation Manual

**1 Locate Your IMEI** - Before installation, take note of your IMEI number located on the front of your PioneerLTE GV50 tracking device. If you already received a username and password, you can skip this and move forward to step 4.

**2 Activate Your Device** - Visit our website at the following address: <http://www.LoneStarTracking.com> and click the “Activation” button in the upper right. Please fill out the form and include the IMEI from step 1. After activation, you will receive a username and password in your email.

**3 Install Your Device** - Locate a good location in the vehicle by using image below. Connect a positive and negative wire to the red and black wires on the gps

**4 Begin Tracking** - Visit our website at <http://FleetOne.LoneStarTracking.com> or download our mobile app by searching for “loneStar Tracking”
